High Performance Joints:

The joint performance of SaniTite HP and N-12 HP meets or exceeds the 10.8 psi laboratory performance standards per ASTM D3212 requirements.

Easy Installations:

The rugged, lightweight design of SaniTite HP and N-12 HP makes them easier and more cost-effective to install. They require fewer people, less time and less heavy equipment to install compared to concrete pipe installations. It all adds up to lower installation costs.
