ADS Utility Grade Pressure Pipe is a leader in today's agricultural and landscape irrigation markets. Its flexibility and durability distinguish it from the competition and make it ideal for a variety of non-potable applications.

Utility Grade Pressure Pipe is strong and resistant to many common causes of damage such as vibrations, surface loads and pressure surges.

ADS Utility Grade Pressure Pipe comes in various diameters from ½"-2" (13-50 mm) and in standard coil lengths of 100' and 300' (30 and 91 m). The Utility Grade Pressure Pipe also comes in pressure ratings of 80, 100, and 125 psi (550, 690, and 860 kPa).

**APPLICATIONS:**
- Agriculture
- Landscape Irrigation Systems
- Home & Commercial
- Compatible with Barbed Insert Fittings

**FEATURES:**
- Durable plastic material stands the test of time
- Flexibility makes it ideal for a variety of projects
- Strength withstands weather and the human element
- Light weight
- Chemically resistant

**BENEFITS:**
- Resistant to rot or corrosion
- Fast and Easy to install
- Easy installation provides cost-efficiency
- Flexible lengths can be installed in uneven terrain
- Available in many lengths

**ADS Service:** ADS representatives are committed to providing you with the answers to all your questions, including specifications, and installation and more.
