Recommendations:
Connections to manholes and structures for installation see standard detail STD-201 and technical note 2A hope

Manhole:
Prevent differential settlement between the pipe and structure adapter. Extra precautions must be taken to ensure manhole gasket is installed securely around adapter.

Performance highly dependent on installation, contractor.

Notes:

Prefabricated Manhole

Pre-Cast Water Tight

Gasket Compression

Water Tight Connection using A-12-30” Dual Wall Sanitite HP
